## Errata Note

### **RESOURCE EFFICIENCY AND CLIMATE CHANGE: Material Efficiency Strategies for a Low-Carbon Future**

Apologies to those of you who have downloaded the full report, *RESOURCE EFFICIENCY AND CLIMATE CHANGE: Material Efficiency Strategies for a Low-Carbon Future* on or before 17 May 2021.

The following changes were made to the original PDF, Table 1 'Material efficiency strategies and policy options for housing' on page 8 of the full report:

- Rows describing policies related to the material efficiency strategies of material substitution, fabrication yield improvement, and more intensive use have been added
- Examples related to the strategy of using less material by design have been added

Any downloaded and printed versions prior to 17 May 2021 should be read as per this note. The current online version reflects these changes.
