***Errata Note***

*“Assessing Global Resource Use:  
A systems approach to resource efficiency and pollution reduction”*

Apologies to those of you who have downloaded the pdf of the full report. This pdf is currently being corrected so that figure 2.4 entitled "Global material productivity compared to labour and energy productivity" (page 30 in the full report) is accurate. In this figure, the green line represents "Labour Productivity" while the purple line represents "Material Productivity".

The printed version of the report should be read as per this note.
